

Dear Shopping Marquee Exhibitor

106th Ashby Show - Sunday, 9th July, 2023

SHOPPING MARQUEE STAND DETAILS

The 2023 Ashby Show will be held at Cattows Farm, Heather on Sunday, 10th July and we thank you for your continued support or for showing an interest in attending this year's event, especially after the disruption the coronavirus has caused during the last two years!

We make sure our Shopping Marquee has a wide variety of exhibits and as it is always fully booked by the end of June, early application is advisable to avoid disappointment. All Exhibitors will be listed in the Show Guide (except for applications received after 11th June, 2023).

Ashby Show is a traditional one-day agricultural show, and with an average attendance of 15,000 is considered to be one of the best in the country. It retains strong links with agriculture and helps to promote a link between town & country. A wide range of entertainment and displays is being arranged again and our livestock classes remain a very important feature and there are many showing classes for cattle, sheep, horses as well as show jumping. These along with all the other side attractions will provide something for everyone attending the show and - for you the exhibitor - provides an extremely good market place for the promotion and sale of a wide variety of goods to the general public.

This year, we would like all bookings to be made on-line if possible and if you need any help regarding this then please give me a call on the number below.

All suitable applicants will be considered and must complete and sign a Risk Assessment & Fire Risk Assessment form with their booking along with proof of Public Liability Insurance. No applications will be accepted without this form or remittance.

Ashby Show is going from strength to strength and we look forward to receiving your booking and seeing you at the 2023 Show. If you require any further information or wish to discuss space availability or sponsorship opportunities, please do not hesitate to contact the Show Office.

Yours sincerely

Emmie Shaw
Show Manager

Risk Assessment Guidelines

Guidelines for Shopping Marquee Exhibitors, all of who **MUST** complete the Risk Assessment & Fire Risk Assessment forms and return with their applications.

Using the guidelines shown below please consider what risk there is to those building up your stand and to members of the public during the Show. Outline the steps you propose to take to minimise that risk on the Risk Assessment form.

HAZARD (please use as a guide to complete 'hazard' column on risk assessment form)	
Look only for hazards, which you could reasonably expect to result in significant harm under the conditions in your workplace. Use these examples as a guide.	* Slipping/tripping hazards * Chemicals (e.g. Battery acid) * Moving parts of machinery (e.g. Blades) * Work at height (e.g. from mezzanine floors) * Pressure systems * Vehicles (e.g. fork-lift trucks) * Electricity * Dust (eg from grinding) * Fumes (e.g. vehicle engines) * Manual handling * Noise * Livestock on stand * Lifting operation
Fire Hazard	Combustible materials (rubbish, flammable substances, LPG etc) and ignition sources (flames, smoking etc)

WHO MIGHT BE HARMED? (Please use as a guide to complete 'persons at risk' column on risk assessment form)	
There is no need to list individuals by name – just think about groups of people doing similar work or who may be affected, eg	<ul style="list-style-type: none"> • Office staff, Maintenance personnel, contractors • People sharing your work place – Operators, cleaners, members of the public <p style="text-align: center;">Pay particular attention to:</p> <ul style="list-style-type: none"> • Staff with disabilities, visitors, inexperienced staff • Lone workers – they may be more vulnerable
Is more needed to control the risk? (Please use as a guide to complete 'controls to minimise risk' column on risk assessment form)	
For the hazards listed, do the precautions already taken:-	
* Meet the standards set by a legal requirement? * Represent good practice	* Comply with a recognised industry standard? * Reduce risk as far as reasonably practicable?
Have you provided:-	
* Adequate information, instruction or training? * In case of fire, a means of escape	* Adequate systems or procedures? - Fire detection and alarms - Fire fighting equipment - Fire evacuation plan
